There is concern about under-reporting, working with agencies to get a more accurate number. Currently, there are two monitored camps by Church in the Park and Catholic Community Services. There is no record of how many un-monitored camps there are in Salem. Monitored means there are staff, bathrooms, running water, showers, access to services. The city continues to work on the Navigation Center and a third park. DJ, Vincent with Church in the Park spoke to their efforts. His report included a back history of doing this work for more than six years, providing winter assistance primarily, the Safe Park Program. They have had 16 people get work and transition out of the monitored camps, and 36 shelters have been built. Mention of DMV program and a New monitored camp with priority to 55+ coming in West Salem. They currently have a waiting list of 300+ unsheltered souls. They have a sign-up form. J. Staats asked both G. Bennett and DJ. Vincent on how the CITP and the City of Salem ensure that no one is being discriminated against for their
