COMMUNITY DEVELOPMENT DEPARTMENT

TO: RECIPIENTS OF PUBLIC HEARING NOTICE
FROM: EUNICE KIM, AICP, PLANNER III
DATE: OCTOBER 30, 2019
CASE FILE NO.: CA 19-05
SUBJECT: MULTIFAMILY HOUSING DESIGN PROJECT

The public notice included with this mailing concerns a public hearing before the Salem Planning Commission on a proposed ordinance for the Multifamily Housing Design project. The proposal aims to help meet our community's housing needs by removing barriers to the development of multifamily housing and ensuring that new development is compatible with our neighborhoods. Specifically, the proposal would provide greater flexibility in how multifamily design standards can be met, and it would create a new set of limited design standards for smaller multifamily housing projects (e.g., those with 12 or less units). The proposal would also make it easier to develop three- and four-family projects and streamlines the approval process.

These proposed changes are the result of the Multifamily Housing Design project, which began last year with assistance from a consultant team and the Oregon Department of Land Conservation and Development. The proposed changes are based on input from the community, including neighborhood association representatives, developers, architects, housing agencies, local officials, and others. Outreach has included focus groups, public meetings, and a survey.

The proposed changes implement a recommendation in the Salem Housing Needs Analysis (HNA). The HNA found that Salem's portion of the urban growth boundary has a projected 207-acre deficit of land designated for multifamily housing (2,897 units) based on a 20-year population forecast.

The complete list of proposed changes can be found online at the following location:
