October 23, 2020

**SUBJECT: Hayesville Pump Station Relocation and Force Main Installation Project
4493 Hayesville Drive NE
Project Number 717101**

Dear Salem Property Owner/Resident:

The City of Salem has budgeted wastewater rate and revenue bond funds for the installation of a new sanitary sewer force main along Hayesville Drive NE and for the relocation of the existing Hayesville pump station to allow for Marion County's future street improvement project. Please see the enclosed map for the project limits.

During the initial stages of design, locates will be marked in paint to identify the location of underground utilities. Additionally, there will be various surveys, potholing, and geotechnical explorations that may require temporary lane closures.

Additional notification will be sent to you as the project progresses toward construction which is currently planned to start during the Summer of 2021. Please feel free to contact me if you have any questions or comments at 503-588-6211 or rkeller@cityofsalem.net.

Sincerely,

Robert Keller, PE
Project Manager
