SUBJECT: Union Street NE Sewer Pump Station Electrical & Communication Upgrade Project Number 202011

Dear Salem Property Owner/Resident:

The City of Salem will be performing electrical and communication upgrades at the Union Street NE Sewer Pump Station, shown on the attached project location map. The construction work will be installing a new electrical control cabinet and new radio communication system to improve the operational reliability of the pump station and replace aging electrical equipment. As part of the radio communication system, a 70-foot tall monopole will be installed.

The electrical and communication upgrades will be completed by EC Electric. **Intermittent construction is estimated between late January through April 30, 2021 due to the estimated delivery date for the monopole.**

Please feel free to contact me at 503-871-1978 or hbiskie@cityofsalem.net if you have any questions, comments or concerns regarding the project.

Sincerely,

Howard Biskie, PE
Project Manager
