

2007-2021

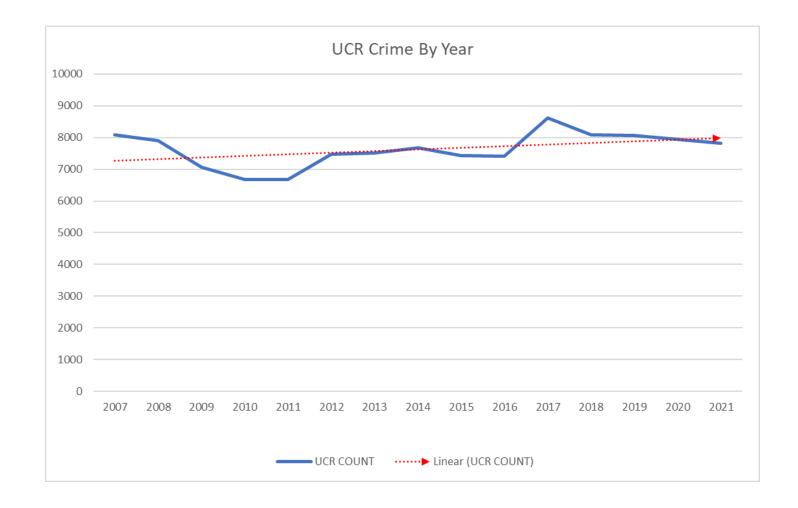

- The crime counts are tallied from our Records Management System (Mark43) using the standards defined by the FBI's "Uniform Crime Reporting" program:
 - Crimes against persons (Homicide, Agg Assault, & Rape) are tallied based on the number of victims of the crime.
 - Motor Vehicle Thefts are tallied by the number of vehicles stolen.
 - Other Crimes against property (Arson, Burglary, Larceny, & Robbery) are tallied by the number of incidents.
- Specific crimes included in the Violent Crime Statistics include: Homicide, Rape, Robbery, and Aggravated Assault.
- Specific crimes included in the Property Crime Statistics include: Burglary, Motor Vehicle Theft, Larceny(All), and Arson.
- The crime rate is tallied per 100,000 residents.
- Population data is obtained from the Portland State University Population Research Center.
- The Linear UCR Count is a trend line used to indicate long-term trends where year-to-year increases and decreases may not be apparent.
- It is possible for crime counts to change from previous reports due to ongoing criminal clearances.
