

Morningside Neighborhood Association

Meeting 10/11/23

Morningside United Methodist Church

Minutes

Meeting called to order at 6:32pm

Chair Pamela Schmidling presiding

Board members present: Pamela Schmidling, Alan Meyer, Muriel Meyer, Janet Bubl, Liz Backer, Jenny Hiatt, Bennie Yows, Kurtis Smith, Geoffrey James, Al Tocchini, Nathan Soltz; Mark Olson is excused

Quorum present

Correction to September minutes: Bennie asks that his question about city manager pay read "...afford to pay city manager [that much money]"

September minutes approved unanimously

Pamela shares that Trevor notified us he will be late if he is able to make it at all due to other commitments

Guests Lindsey and Rebecca present about Women at the Well Grace House

-Their plan to expand the women's living facility to go from serving a maximum of 5 women to 16.

-Sue asks what Grace House does; Lindsey says it provides shelter to women – long-term assistance facility, 6 months - 1 year typically, for women coming out of incarceration, it helps get them on their feet so they're not thrown into a society where there isn't that assistance

-Each woman is assigned their own bed and there are 3-4 beds per room; the improvement plan is to turn common space into additional beds, the women living there agree they would like to see that change; it is on Peace Street (1243 Peace Street), between Vista and Fairview; intentionally do not make exterior noticeable as it is transitional housing; currently, parking is on-street, proposing 6 additional parking spots off-street, including ADA stall

-Trevor: our community has higher than typical women who need this

Police report: officer not present, Trevor says staffing issue

Councilor report: Trevor Phillips

-National Walk to a Park event yesterday with Mayor, Stapleton, Varney – walked to Wendy Kroger neighborhood park with 5th grade classes; attended Chabad vigil with Council President Stapleton and the Chief of Police; city is partnering with UO students and faculty, doing projects where they want to go into government work and the city of Salem uses them to help, in particular focusing on meeting climate goals; debate tonight at Elsinore about the payroll tax, Councilor Stapleton is representing the supporters; Trevor supports Councilor Stapleton, we don't know the best way to raise revenue, but we need to raise revenue, and this option does that and was their best option; if we don't invest now, the problems become exponentially worse; he encourages people to look at it and understand that we need revenue and if we don't get it, there will be significant cuts; city council meeting on Monday was just approving minutes, agreed they'd have a couple public hearings in the next month or two on various topics; towards the end of the year, staff recommends some updates to code, such as things needed due to changes from state legislature;

-Janet: article from Governor in Oregonian that she would not vote for payroll tax, it seems that she does not understand issue of CILT and issues specific to Salem; Trevor says he thinks that was a political decision she made, but that before this statement, she did say that what the council did was "brave" and that she recognized the need, and she did say that the state should take over some funding for managed microshelter sites and navigation center – if the state did that, it would decrease the need on the city significantly, especially if combined with some CILT; the shelter houses about 250

people when fully staffed, navigation center slightly fewer, about 230; Trevor is glad we did the investments we did, hopes we don't go backwards should payroll tax fail;

-Alan Meyer: says the tax wouldn't affect him, but knows he was the only one who raised concerns in MNA, didn't like that the council passed the tax without adequate public feedback, doesn't like that we are prioritizing homelessness above fire in our city's funding; Trevor says that there were a lot of negotiations and the prioritization of city funding was what they landed on with most support; should this fail, staff is going to come back with other options but we need to raise revenue; a cliff is coming, council voting on this now is the only way to have funding in July of next year, which is when we run out of being able to provide services at the current level; with the vote now, we are pushing out being able to collect additional revenue until beginning of 2025 even if it passes; we cannot cut our way out of this, if we do, our city will be in crisis, we cannot deficit spend, parks will not be maintained, libraries and fire stations will close; outgoing city manager told us we didn't have a staffing issue, but after he left, we realized that we did actually have an issue

-Sue Reid: last time, we talked about state lands in city limits – do you have a number on how many acres? Trevor says no, but we know in value it's over a billion dollars and with all non-profits, it's over 2 billion, 5-7 million dollars in revenue, which would come close to funding our homeless sites, managed microshelters, navigation center; acceptable average for those who come in for services and don't return to homelessness is about 25%, about 50-60% of those in Salem who come in for services do not return to homelessness, so our services are working very well

-Nathan: supporting homeless shelters is an economic plus too, taking strain off of many emergency services, so it's not just about a moral obligation, but it is economically smart to support these services for the homeless; Trevor says that data in Salem just on pilot programs shows that, and more specifically 10-20% of those in shelters immediately go back to work too; we're ending homelessness for hundreds in Salem per year; Oregon should have 110,000 more housing units than we currently have, just as percentage of the population, that's about 5,000 for Salem

-Bennie: says Measure 24-491 has confusing ballot title, it needs to be worded more clearly; Trevor says he hears what he's saying, but just to clarify, council didn't want this to need to go to the voters; Eugene's didn't go to the voters; the motion approved by council was not initially crafted in a way to go to the voters, it wasn't intended that way, so it wasn't written like that; Trevor says the way that process works, after city council makes policy, rulesmaking is done by staff after the policy is approved; Nathan explains why ballot titles are so confusing

-Pamela: Trevor mentioned that there are kids who had the park right behind their fence and they didn't know about it, can city planners work on getting a path to make sure this doesn't happen – in Kroger park specifically, there's a private mobile home park that prevents access; Geoff says there was another park where the city approved a massive apartment complex and didn't require any throughways to easily access the park from neighbors; Trevor says that council has tried many times to vote to require things like that, but that nothing comes of it because they are legally precluded from doing it, either by city code or state statute; also, each park is going to have a different issue and we have 90 different parks; agrees with the sentiment, supports it, but don't know what needs to change to make that happen, but we do have funding to improve and create sidewalks

-Geoff: asks Nathan if Governor has authority to withhold kicker and give it to Salem; Nathan says no and explains that the legislature does have the authority to withhold the kicker, but that it would require a 2/3rds vote which is very unlikely; since the kicker is in the constitution, repealing it would require a ballot referral; Nathan's boss Senator Frederick did introduce a resolution to refer repeal to the voters, it got a hearing, but did not pass out of committee; Oregon is losing \$5.6 billion in revenue that it has already collected because of the kicker

-Rick Hartwig: says the planners nixed plan to have easy access to the park Geoff referenced because apartment developers didn't want drug or homeless activity to affect the neighborhood or apartment tenants

-Trevor: met with Rob, the city's parks guy, about Fairview Park – normally when we get funding, there would be a refinement; this is a hybrid, this is more than just a refinement; they want feedback on some of it, e.g. topology precludes having a sports field, would cost about \$10 million, the sports field was part of original plan, but now it's not possible; Muriel says she's talking about Phase 1, which is dog park and historic plaza, the property is already set, why

doesn't Phase 1 just go? Trevor says it will start in summer 2025; there is \$2.5 million in that fund now, another million coming in, \$500,000 coming in through infrastructure bond; they will be seeking community feedback on what they want in the park

-Trevor: Faye Wright Neighborhood Association doesn't meet regularly anymore because there is no chair, used to have about 10 regular members, now down to 3; there was discussion about having Faye Wright join our neighborhood association, questions about how that would affect our board and how their bylaws align with ours, and differences in the neighborhoods; questions about boundaries, Nathan says the boundaries are a triangle – Commercial, Liberty and Kuebler; members expressed that Faye Wright members would be welcome to attend one of our meetings so we can discuss this further, and we would like to see their bylaws

Committee reports

Traffic – Alan: speed reader board in front of Leslie, got data from Mark Jantz (appended to minutes); there was a speed reader board down Battle Creek, now gone, but we haven't gotten any data

-Trevor says we have four of the easily-deployable speed reader boards, but no one is keeping the data, we get the readout but then nothing happens; Elizabeth Powers (guest) says she was told from city that data from reader board on Madrona was lost; Nathan says that speed limits are generally set by taking traffic data and putting the limit at the 85th percentile; Trevor says even with new state law allowing for cities to more easily adjust speed limits, it isn't actually that easy and is expensive for cities

-Alan says Strong Road is being completed from Reed to Pringle, but doesn't think it will be a big deal because Reed was widened

-Leia (guest) says speed limits are also affected by size of streets and volume of traffic; Liz explains that is for city-owned streets, the state sets some limits in Salem, like on Battle Creek

Land Use – Geoff: in January, the city notified that at nearby Painters Hall, formerly Carpenters Hall, there was a proposal to carve it up into offices, MNA was okay with that; today, Geoff got an email that they want to improve with a café on the ground floor, developer hasn't submitted application yet, needs to go through city to change zoning from just offices to include café; board members expressed support

Parks – Muriel: introduces Leia (guest) to speak about Hilfiker Park: would like to install five oak trees, exact variety to be determined, low maintenance trees, have shade, would be on the South Side; Muriel says there was a plan for it previously, but neighbors wanted to keep it natural; city will not help; Rob (City Parks) has said that this can be done if MNA approves it; Leia volunteers with Friends of Trees; Alan says city put in the grassy field after Muriel got the grant for it; city has right of way reserved through the park, so they may not want us planting trees there; Geoff says Public Works controls right of way, Janet says Parks and Public Works need to talk; Milon Davis is in charge of trees for the city, Trevor suggests talking to him and Mike Slater; Leia says she has already talked to city

Muriel moves that MNA support planting trees in Hilfiker Park in coordination with the city; seconded; approved unanimously

CERT – Pamela: had a meeting, there are classes, but not a lot happening; getting slow off the ground with new manager

-Trevor says new Public Works building opened and is wonderful, designed to be operational within 24 hours of a major seismic event; Geoff says that the project was funded by the city collecting roughly \$3 million a year and saving 1-2 million per year in "stormwater funds," and it was paid for from there; Janet says staff will actually work in-person now instead of remotely

Liquor Licenses – Pamela: reapproving one on Fairview Industrial, Pamela didn't bring a copy, will send to members after the meeting (appended)

Transit – Trevor says Sarah, our area's Cherriots rep was here, but couldn't get in and was feeling ill, but will attend again

Hours – Muriel: 11; Jenny: 1; Geoff: 1; Alan: 1; Liz: 1; Nathan: 2; Pamela: 8

Communications – Jenny: Muriel wrote a lovely article on Fairview Park; Rahcel Alexander from Salem Reporter is doing a Neighborhood Association feature every second week of the month; Zoom account – Irma is working on it; Halloween – Jenny going to do an MNA trunk or treat here at the church on the 28th 3-5pm, Church passes out candy; Jenny is going to be there with our banner to hand out stickers and candy

Nathan moves to approve spending money from the communications fund on cards and candy for trunk or treat; seconded; approved unanimously

Other board members, please come!

-Alan Meyer: Jenny getting award on Monday, October 16, 5pm, volunteer appreciation at Loucks Auditorium at the library

-Jenny asks if MNA has ever done a drive for coats, toys, etc. Board members say we haven't; trying to think of ways we could do something for the neighborhood around the holidays, Jenny will reach out to Morningside Elementary and see if they do something; Sue says Morningside Church has a giving tree and they coordinate with the elementary school on who might be in need; Muriel asks about doing something with CERT; there was general brainstorming among the board; Jenny asks that we explore something for the holidays next meeting and she will reach out to Leslie and Morningside schools

Rick Hartwig: SPRAB (presentation appended) – we have the same amount of greenspace Eugene has but 1/3rd the budget; funds we get from State Highway Funds (Gas Tax) decreasing every year as the revenue from gas tax decreases

-Jenny says her daughter did basketball camp through the city over the summer and loved it

-Rick says two-way communication through liaison Mickey Varney has been wonderful; Rick happy to be liaison to our board, but we are pretty well-equipped with Muriel

-Trevor says he told Rob that we support expanding Hilfiker park to include area of Meyer Farm that has much of the significant trees

-Muriel asks if the discussion included having an exit to the park because technically it is trespassing to walk through the park; Trevor says not part of discussion, but expanding would be great

Announcements

-Sue: regarding trunk or treat at the church, 400 cars came through; about 16 cars were handing out candy, each car brought about 30 pounds; this year, no drive through, just walking through

-Muriel: invited Linda Sparks (guest) – wants to know who does she thank and who does she ask for information; lives about 30 feet away from tennis court of Morningside Park, just on Ewald at edge of tennis court, several people are living in a camper, doesn't want problem to escalate, called non-emergency police, they were great; those living in the camper are putting propane tanks on road and grass strip; all middle school kids go through park to go home; after a second call, she learned that three or four other calls came through about this, then on Friday they were gone; Trevor says he doesn't know who exactly is responsible for helping, but will ask and get an update, guess is that it involved the SOS team; Linda appreciates how responsive city has been to calls on graffiti and trash too; big thanks to Muriel and Alan, Muriel's support of her in particular

-Nathan: thanks to Trevor for attending the Chabad vigil, which is his synagogue; Nathan shares his campaign website which is nathanforsalem.com

-Pamela: city set up a monitor for a light at Ratcliffe if there is enough traffic

Adjourned at 8:40pm

Respectfully submitted,

Nathan Soltz

Board Secretary, Morningside Neighborhood Association

**Appendices: email from Mark Jantz to Alan Meyer re: traffic report; liquor license application; Rick Hartwig/SPRAB presentation*

Mark,

Thanks. I will report this at our meeting tonight.

My wife told me that there is now speed reader on Battle Creek Road SE near Sunland Street SE. Are you aware of this and can you provide any data from it?

Alan

On Oct 11, 2023, at 11:28 AM, Mark Jantz <MJantz@cityofsalem.net> wrote:

Hi Alan,

Here is the data for this time around. I've added the previous data I had sent you about last December for a comparison.

The parameters were set just a bit different but this data it will get you close. Numbers really aren't that different and might be a touch better.

The data we have when it was out there from 09-15-23 to 09-18-23

30mph zone

Average speed was 33.8 mph

Approximately 78% of drivers were within 5mph +/- of the 30 mph speed limit

Approximately 84.4% of people were in compliance or very low risk speeders

Previous data:

The device was out there from 12/15/22 -12/27-22 (during Christmas break for the school)

30mph zone

Average speed was 34.3 mph

Approximately 60% of drivers were within 5mph +/- of the 30 mph speed limit

Over 80% were very low risk speeders

Hope this helps you out.

Take care,

Mark

Hello Alan,

I have confirmed it is our speed sign out there and it is configured for the school zone. Should be out there for about another week or so.

Sent: Friday, October 13, 2023 8:43 AM

Subject: FW: OLCC Application Recommendation: Full On-Premises, Other Public Location- 3529 Fairview Industrial Dr SE

The City of Salem intends to recommend that the OLCC GRANT a liquor license to the following applicant (favorable recommendation):

Trade Name:	Southside Speakeasy
Business Address:	3529 Fairview Industrial Dr SE
Applicant:	Alzahrani LLC
License Action:	C/O
License type	Full On-Premises, Other Public Location
Applying as:	LLC

CITY OF SALEM LIQUOR LICENSE APPLICATION REVIEW (Excerpts from Salem Revised Code 2.215 provided for your information.)

(a)"The City Council ... delegates to the City Manager the authority granted to the City Council pursuant to ORS 471.166 to investigate and review applications for the issuance of new liquor licenses and renewals of liquor licenses, and to make recommendations to the Oregon Liquor Control Commission...

(b) When making a recommendation to the Oregon Liquor Control Commission, the City Manager shall review the application for compliance with ORS Chapter 471 and the criteria established by Oregon Liquor Control Commission administrative rules...

(c) Notice of the City Manager's decision shall be provided to the applicant, each City Councilor, and the chair of the neighborhood association for the geographical area within which the licensed premises lies, no later than five business days before the recommendation is to be provided to the Oregon Liquor Control Commission. Notice may be by personal delivery, first class mail, facsimile transmission, or electronic mail. Notice to the applicant shall be sent to the applicant's address stated in the application. If the City Manager's decision is to provide an unfavorable recommendation, the notice shall state the grounds for the unfavorable recommendation and advise the applicant that the City Manager's decision may be appealed to the City Council by filing a written notice of appeal with the City Recorder within five business days of the date of the City Manager's decision.

(d) If, before the date the decision is to be provided to the Oregon Liquor Control Commission, the City Manager receives a request for appeal from an unfavorable recommendation by the applicant, or an objection to a favorable or unfavorable recommendation from a City Councilor or the chair of the neighborhood association for the geographical area within which the licensed premises lies, the City Manager shall schedule a public hearing before the City Council on the application."

Salem Parks & Recreation Advisory Board (SPRAB)

Est. June 1952

Presented to Morningside Neighborhood Association
October 11, 2023

Organization & Duties of SPRAB

- **Nine Members**
 - One expert in urban forestry, horticulture, or arboriculture
- **Advisory Board to Salem City Council**
 - Council Liaison: Councilor Micki Varney, Ward 8
- **Advocates and makes recommendations on:**
 - Park Policies
 - Park Planning and Development
 - Park Maintenance and Operations
 - Recreation Programming
- **Issues decisions on appeals to tree removal permits for city-owned trees**
- **Recommends nominations for Heritage Tree designations**

Participate in SPRAB Meetings

Meetings held monthly

- Second Thursday of the month at 5:30 p.m.
- All meetings are public

Online viewing and participation

- View at the 'City of Salem Public Meetings' YouTube Channel
- Join us on Zoom to participate
- Meetings are scheduled on City website calendar (on the homepage)

Comment opportunities

- On items on the agenda
- On items not on the agenda, typically Agenda Item 3
- Public hearings

Please provide written comment by 5 p.m. or earlier one day prior to the day of the meeting. Send to salemparks@cityofsalem.net.

Salem's Park System

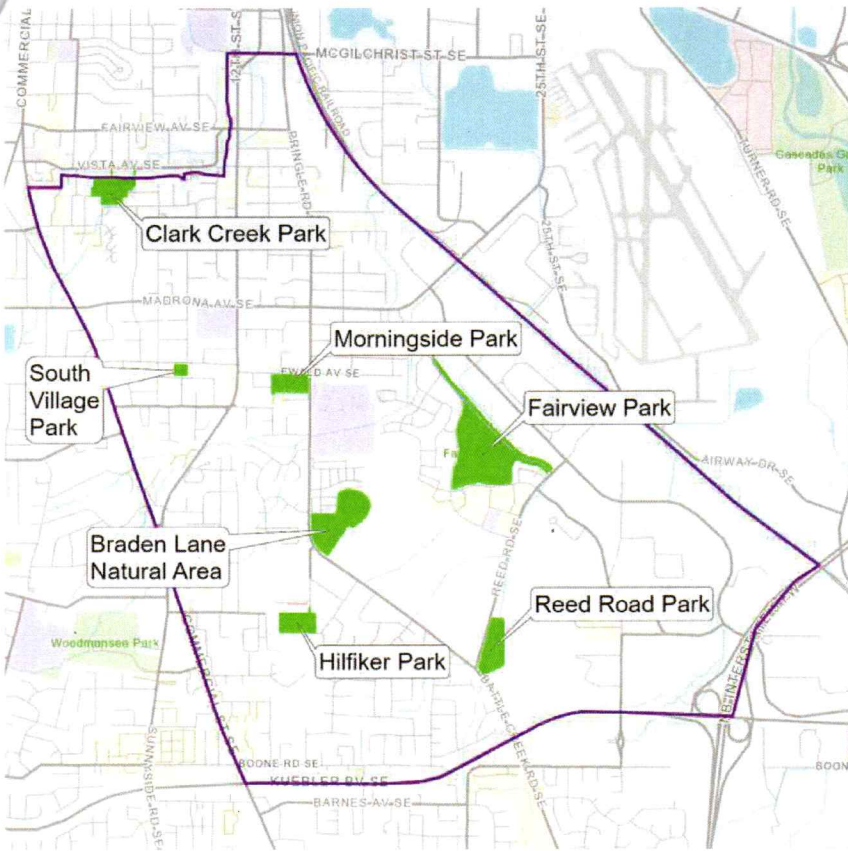

Park Land: Approximately 2,350 acres

Park Units: 91 parks

- 48 Neighborhood Parks
- 11 Community Parks
- 11 Natural Areas
- 7 Urban Parks
- 6 Linear Parks and Connector Trails
- 4 Special Use Facilities
- 4 Historical Areas

Developed Parks: 61

Trails: 66 miles of soft and hard surface trails

Parks In Your Neighborhood

Neighborhood Parks

- Clark Creek Park
- Hilfiker Park
- Morningside Park
- Reed Road Park
- South Village Park

Community Parks

- Fairview Park

Natural Areas

- Braden Lane Natural Area

Park System Funding Streams

- General Fund
- State Highway Funds (Gas Tax)
- Interfund Transfers
 - Transient Occupancy Tax (TOT)
 - Other Revenue (Donations, Endowments, Permit Fees, Direct Program Fees)
- General Obligation (GO) Bond

FISCAL YEAR

2024

Adopted Budget

Salem Park Improvement Fund (SPIF)

Funding opportunity for Salem's neighborhood associations (NAs)

City Council typically provides \$60,000 in SPIF funds each year

Projects must be approved by City staff and consistent with Salem Comprehensive Park System Master Plan policies

How the Partnership Works:

- NA identifies a project within one of their parks
- City staff works with the NA to ensure feasible
- Projects selected by the SPIF Project Review Committee
- City awards up to 75% of funds needed to construct the project
- SPIF project cycles run for a 2-year period

SPIF Timeline

Beginning September of Each Year	End of October of Each Year	November of Each Year	November – January of Each Year	End of January of Each Year	February of Each Year
Neighborhood Associations Notified of New SPIF Cycle	Letters of Intent Due	Review Letters of Intent	NAs and City Staff Prepare Project Budgets	NAs Submit Formal Applications	SPIF Committee Reviews Formal Applications and Awards Funds

Capital Improvement Plan (CIP)

Five-year forecast identifying major projects requiring public funds over and above routine annual operating expenses, updated annually

Annual CIP Process

*Funding sources include General Fund, System Development Charges, Development District Fees, Bonds, Grants, Transient Occupancy Tax, Loans, and Tax Increment Financing from Urban Renewal Area

Park Master Plan Process

Identify Local and System Priorities and Needs

Outreach and Public Participation

Development of Design Options

Staff Recommendation to SPRAB; SPRAB Recommendation to City Council

Council Approval

If you would like to be involved in a park planning project, you can sign up to get email updates.
