

WHAT WE HEARD

How has the community been involved?

1. FALL WORKSHOPS

In the fall of 2019, several visioning workshops were held to discuss how Salem should grow and develop. Community members placed stickers on maps to show different distributions of housing, jobs, parks, transportation, and more! Each square on Map 1 represents a sticker placed by a group of community members during the fall workshops.

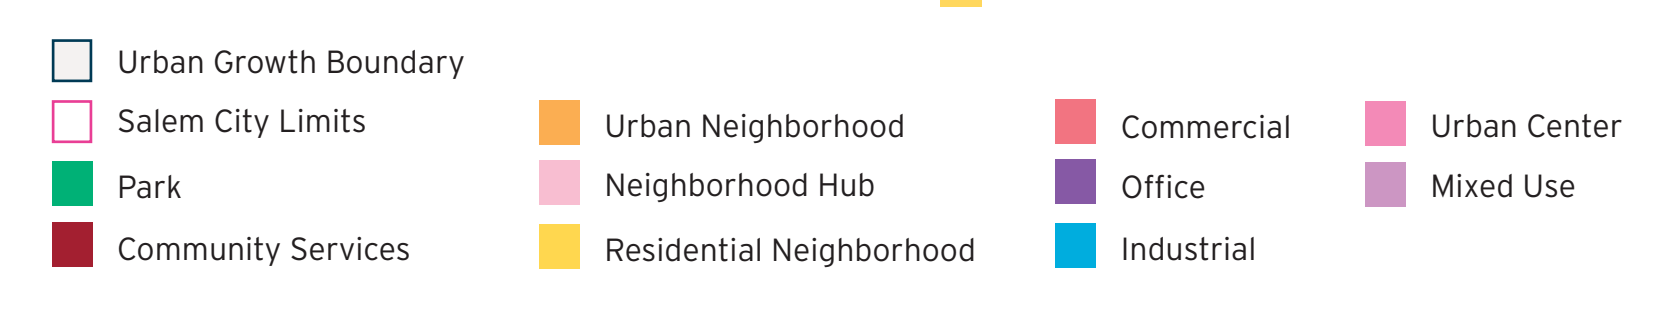

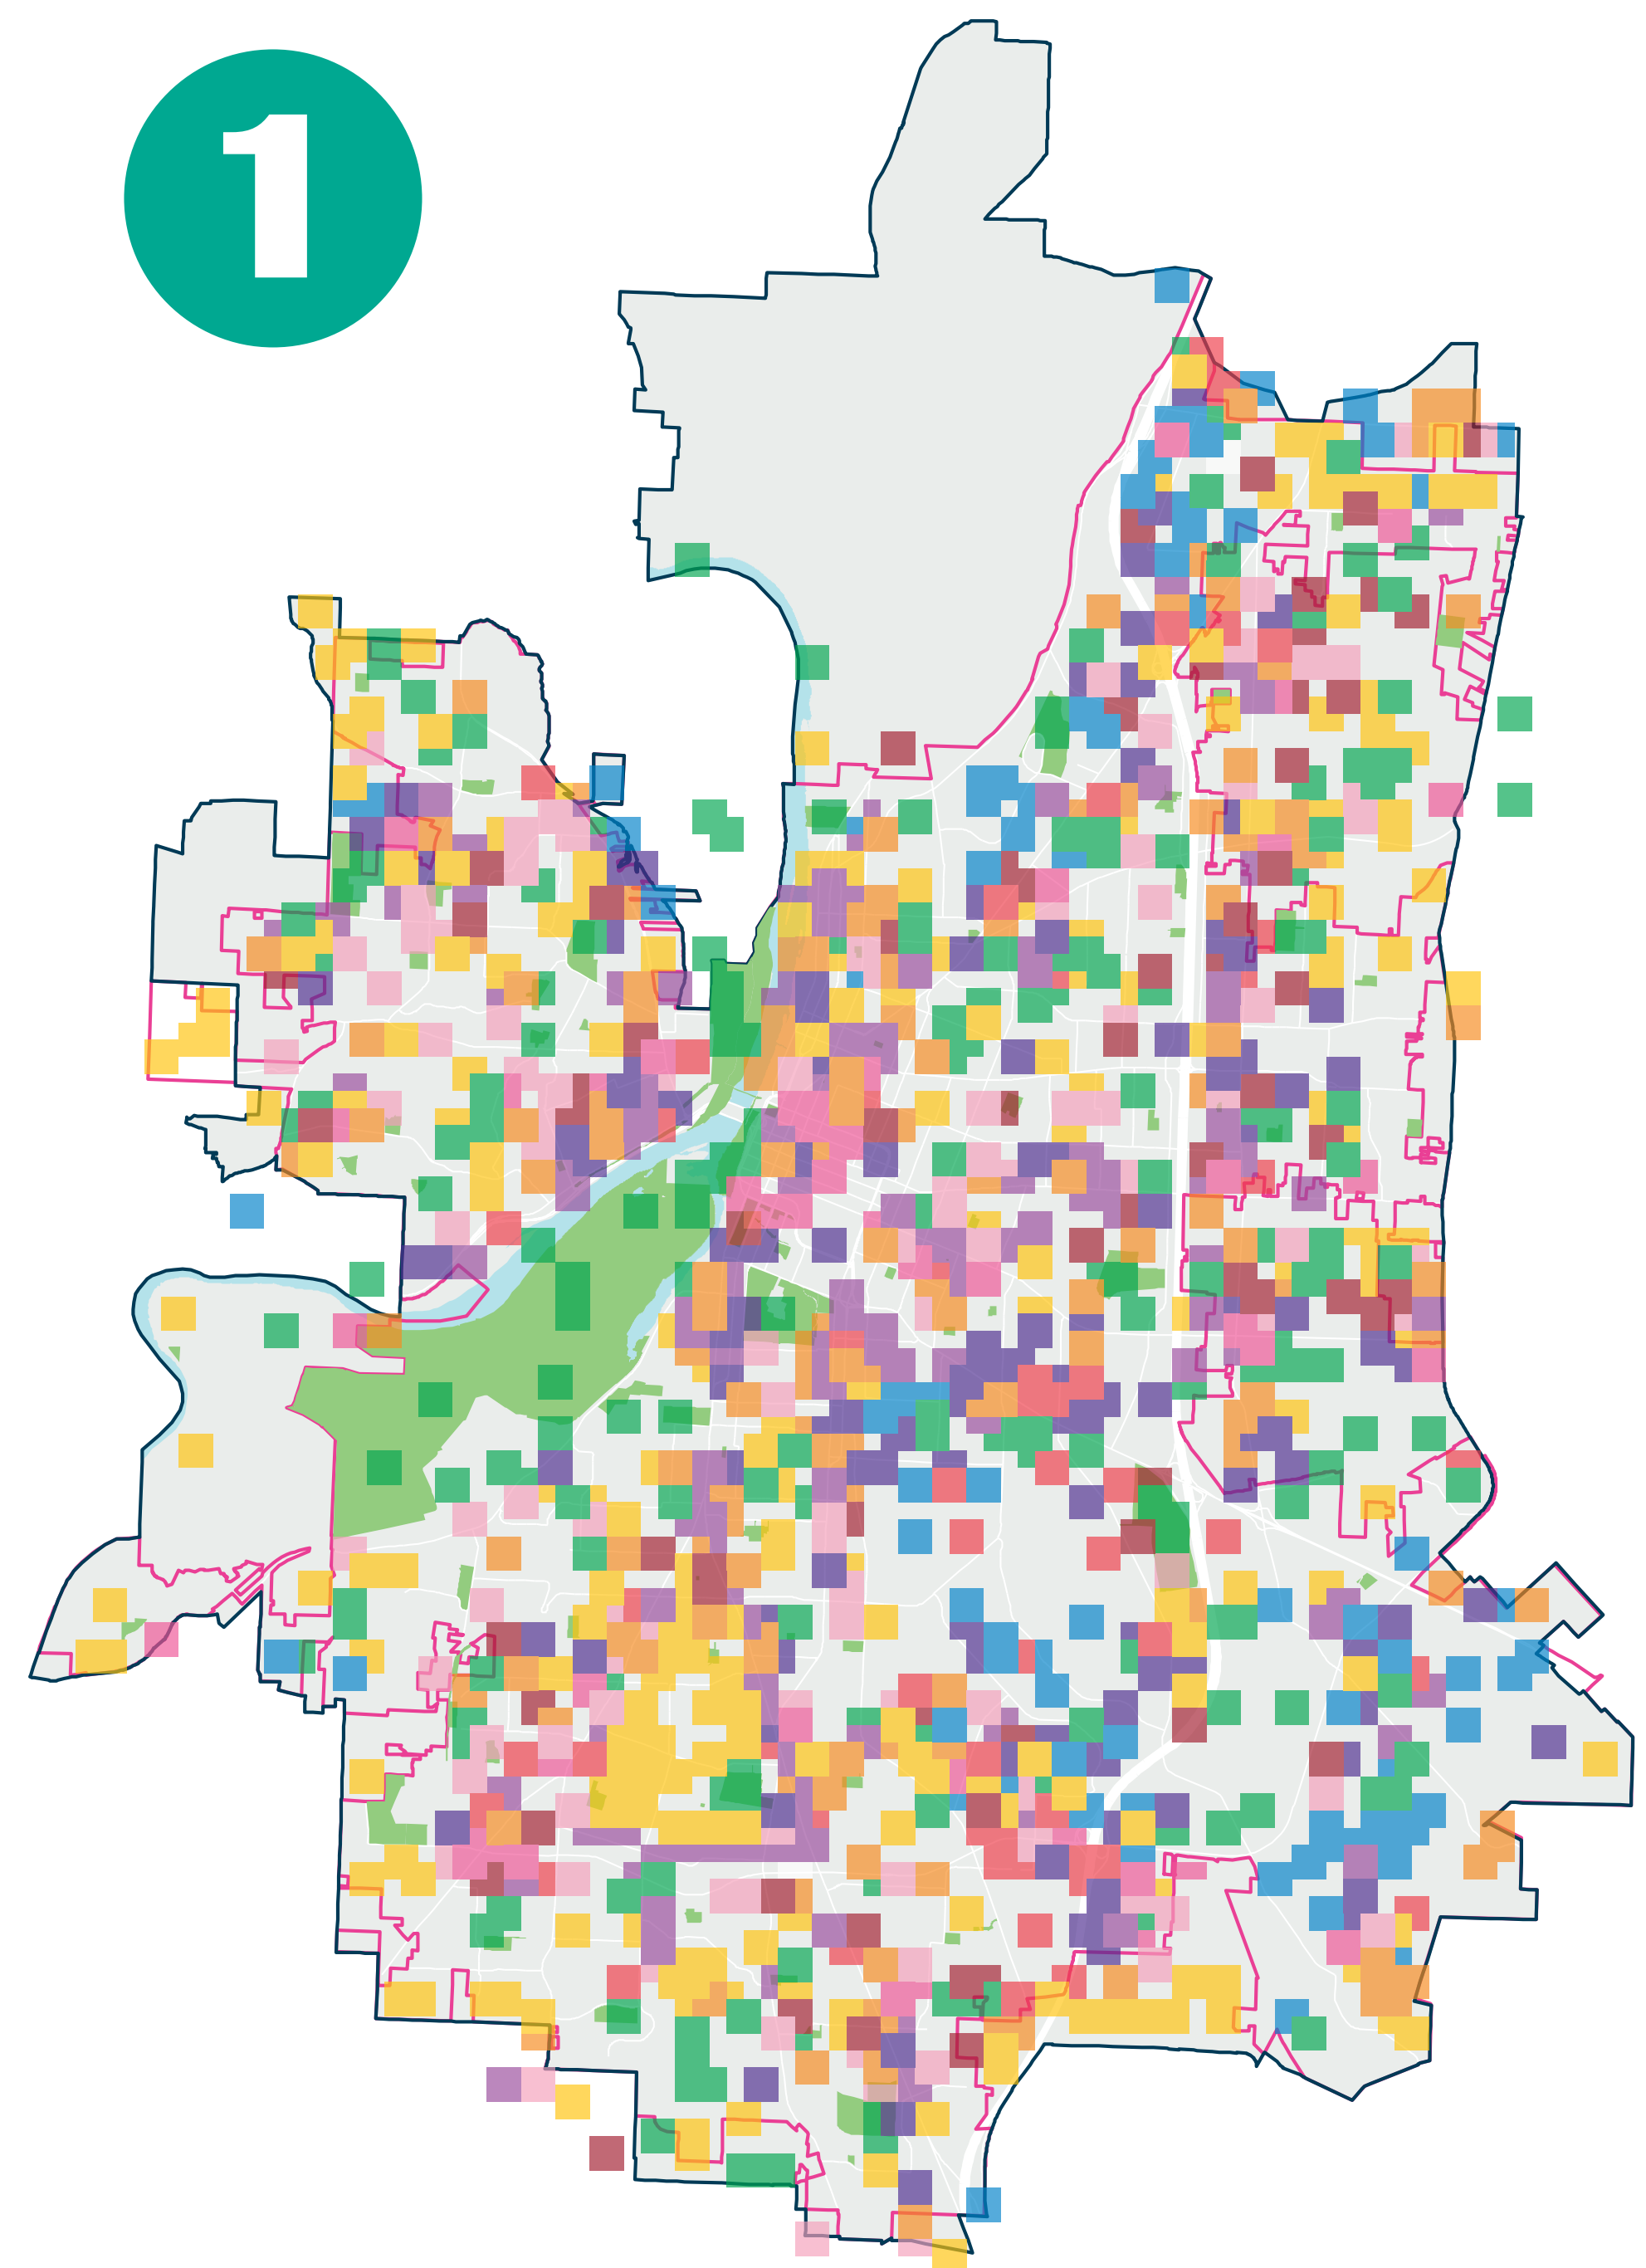

2. ONLINE WORKSHOP

An online mapping activity was launched in the fall to gather additional ideas and feedback from the Salem community. Individuals placed "pins" on the online map to show different distributions of housing, jobs, parks, transportation, and more! Each pin placed on the online map is shown in Map 2.

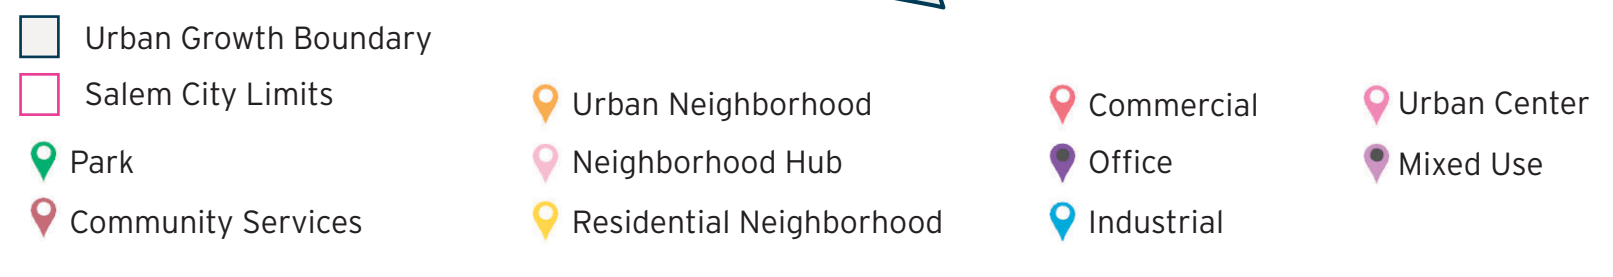

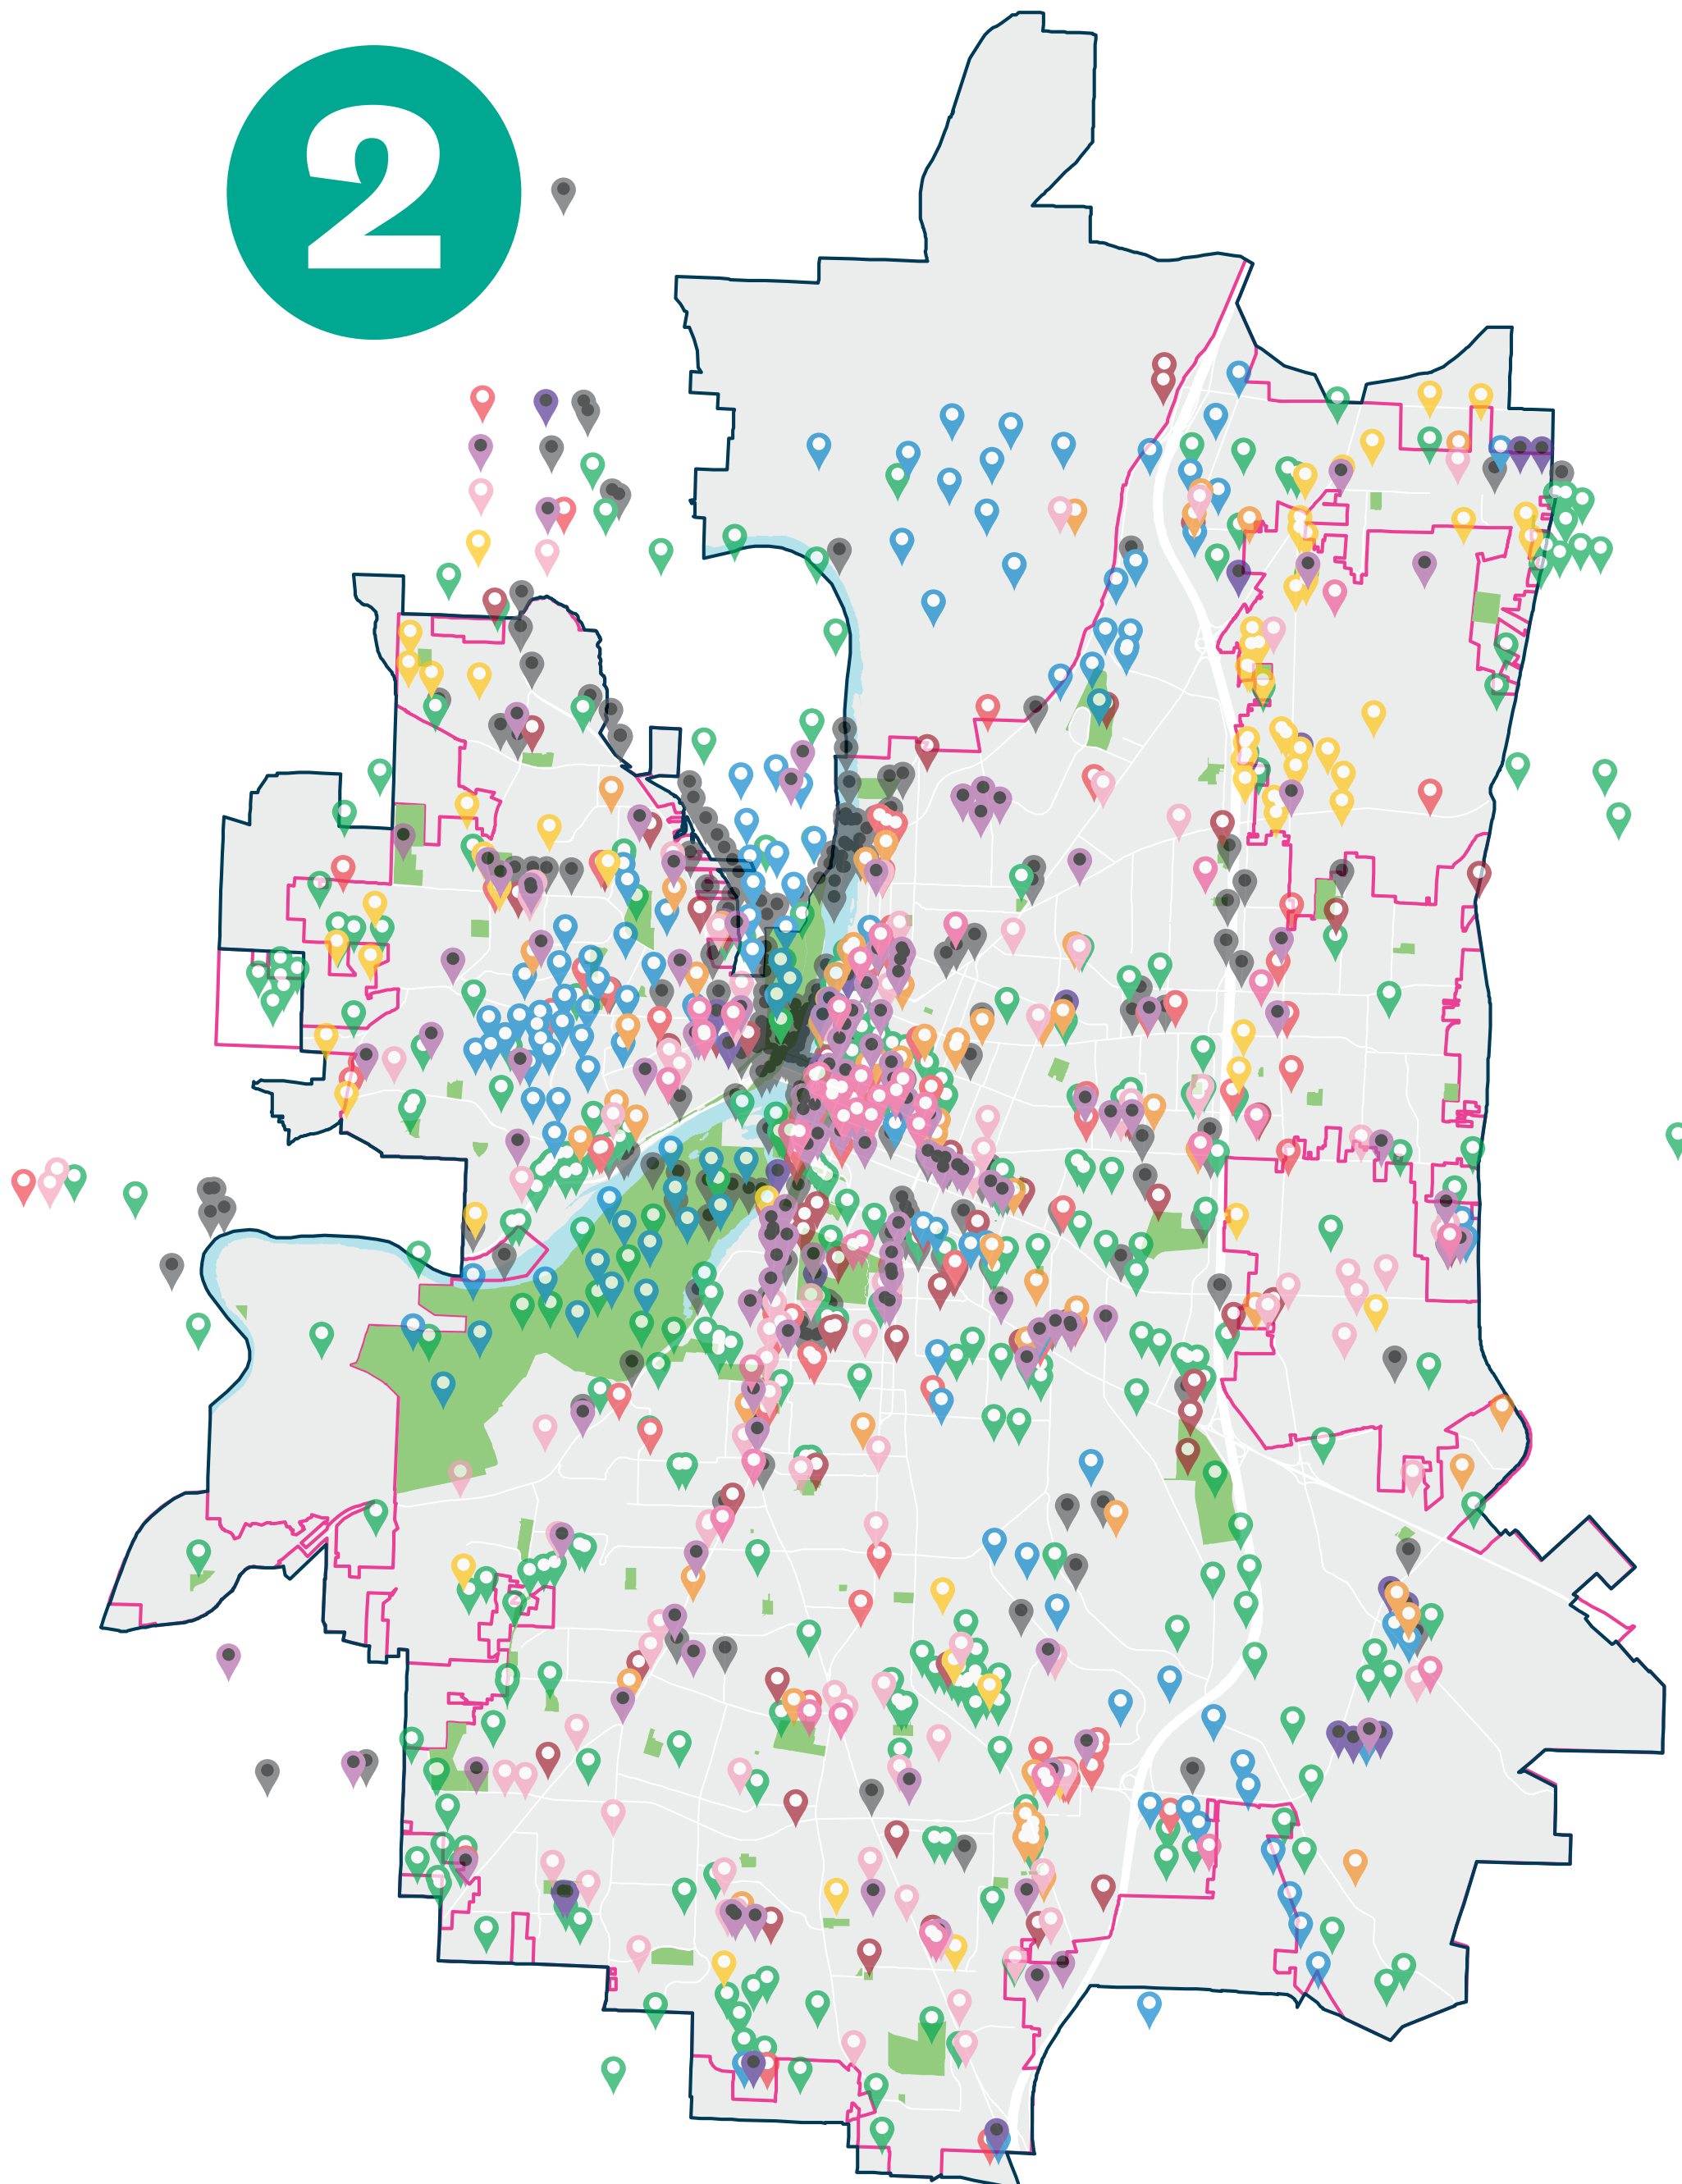

3. COMMUNITY OUTREACH

Community members at dozens of events and meetings across Salem provided additional feedback through a small map activity. "Dots" were used to show possible locations for housing, shopping, community services, parks, and other development types. Map 3 shows all of the dots placed by community members.

WHAT WE HEARD

This map highlights some of the ideas we have heard from the community. It includes areas where there has been some level of agreement.
