NAME YOUR MAP
BIG IDEAS

Visioning to Scenarios

Workshop Maps are Created by the Public

- Big ideas get incorporated into scenarios

Digitized to Inform the Scenarios

- Same jobs & population forecast
- Development types are more specific than the workshop chips

Scenarios are Presented to the Public

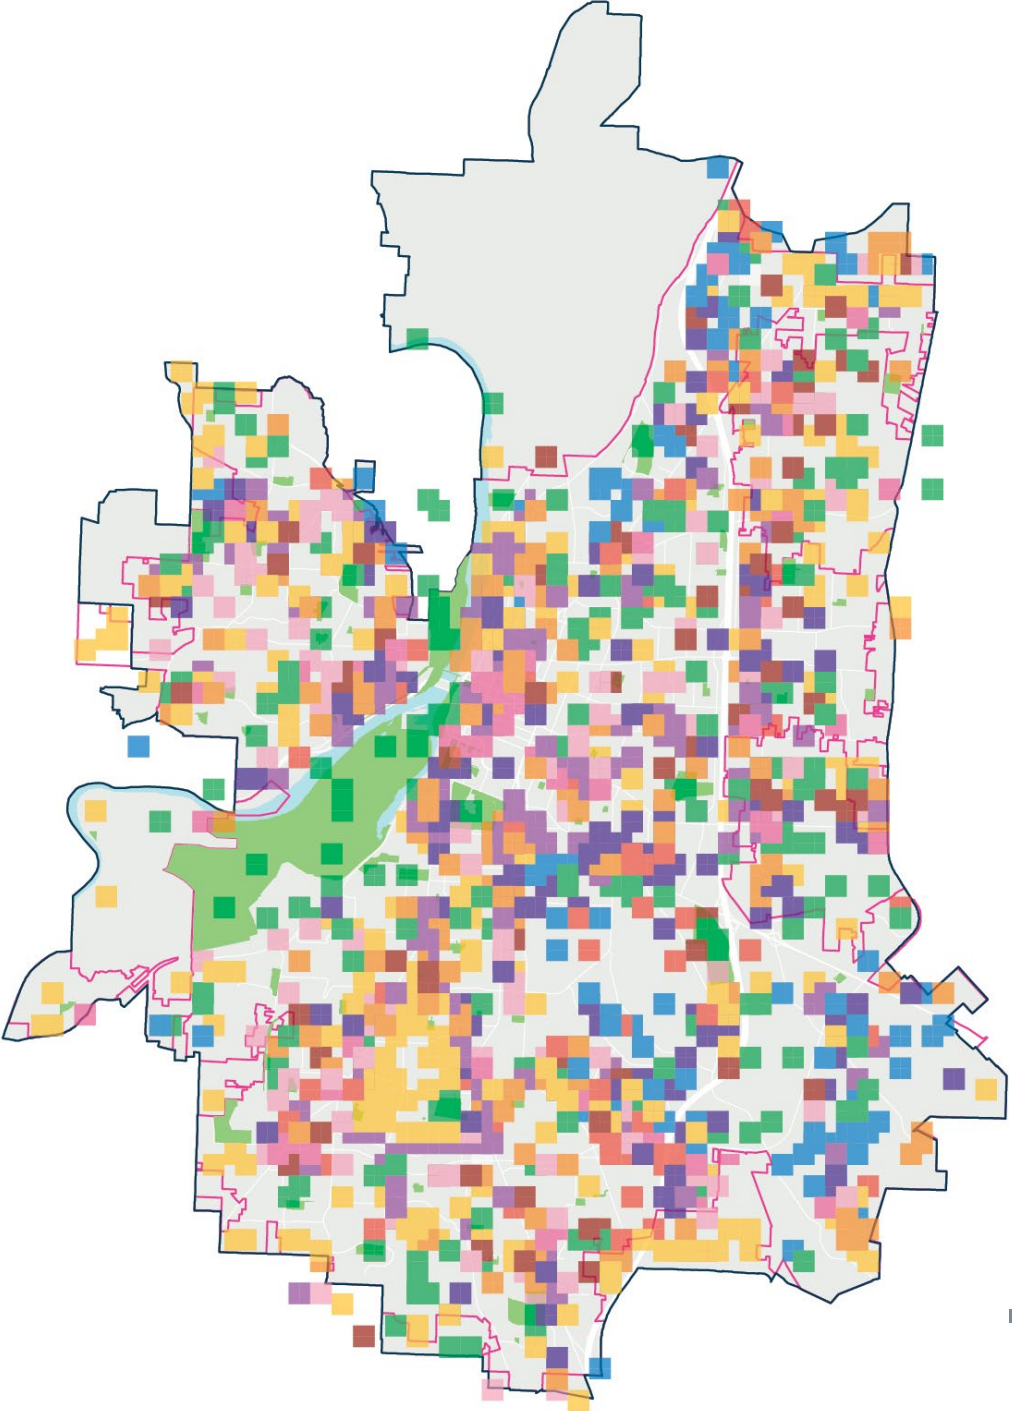

- Highlight key indicators out of 80+ metrics
- Scenarios refined into the Community vision

In Person Workshops

20 maps and >1,600 chips

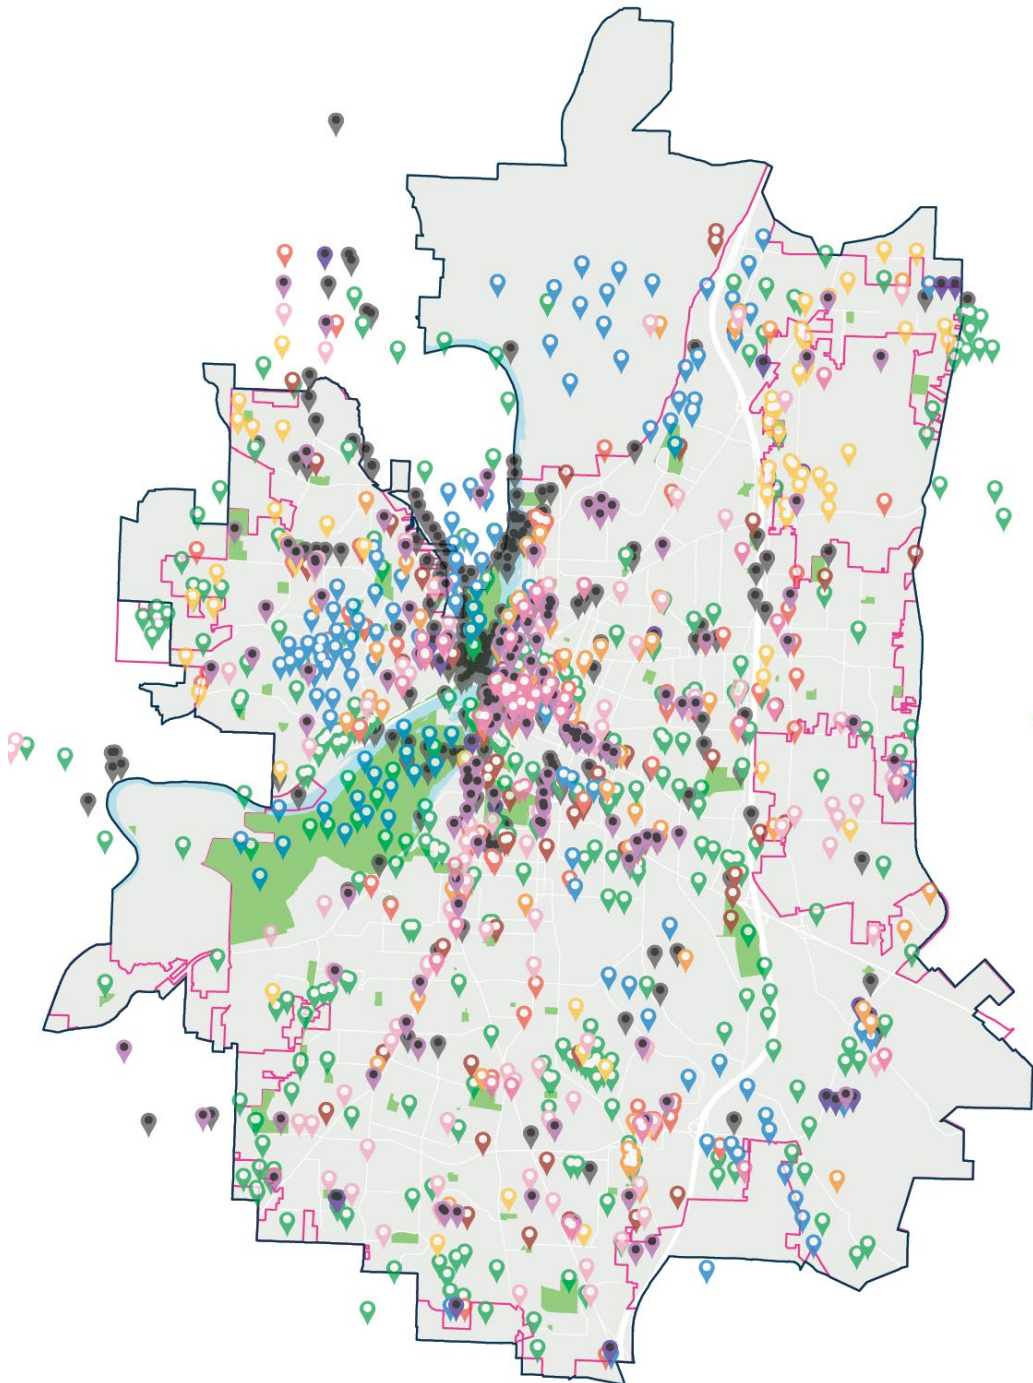

Majority Chips

- Urban Center
- Mixed Use
- Neighborhood Hub
- Urban Neighborhood
- Office
- Commercial
- Industrial
- Residential Neighborhood
- Community Services
- Open Space

Online Workshops

>1,300 pins

- Urban Center
- Mixed Use

● Mixed Use

What we heard: Mixed Use

What we heard overall

- Single Family
- Commercial
- Mixed Use
- Industrial

Scenarios

- Four scenarios: A, B, C, and D
 - Each represent different ideas
 - Each has been evaluated through indicators
- What do you like and dislike about each?
 - Not asking that one be selected as the vision

Development Types

 **RESIDENTIAL**

A photograph of a single-family residential house. The house is two stories high, painted in a light green color, and features a dark grey roof. It has a front porch with white columns and a railing. A wooden fence runs along the front yard, and an American flag is visible on the left. The house is set on a green lawn under a clear blue sky.

 **MIXED RESIDENTIAL**

A photograph of a multi-story mixed residential building. The building is constructed of red brick and features large windows with green frames. It has multiple entrances, each with a set of stairs leading up to the second floor. The building is situated on a street corner with a sidewalk and a street lamp.

Development Types

 **NEIGHBORHOOD HUB**

 **EMPLOYMENT**

Indicator Differences and Similarities

Similar

1. Employment Mix
2. Jobs Housing Balance
3. Average Wage
4. Housing Affordability
5. Affordability (Housing + Transportation + Energy)
6. Proximity to Parks
7. Walk and Transit Friendliness
8. Revenue to Cost Ratio
9. Annual Level of Service
10. Property Tax Revenue
11. Vehicle Miles Traveled
12. Volume to Capacity
13. Greenhouse Gas Emissions
14. Air Pollution from Travel

Different

15. Access to Frequent Transit
16. Complete Neighborhoods
17. Monthly Housing Cost
18. Infill Development/ Redevelopment
19. Development in Environmentally Sensitive Areas*
20. Mode Split
21. Vehicle Hours of Delay
22. Housing Mix

Access to Frequent Transit

Frequent Transit = 15-minute service

Salem's goal is 10.5% of new housing within ¼ mile of bus stops with 15-min service

Complete Neighborhoods

A “complete neighborhood” means people live near parks, schools, grocery stores, businesses, transit

Percentage of New Housing Achieved through Infill and Redevelopment

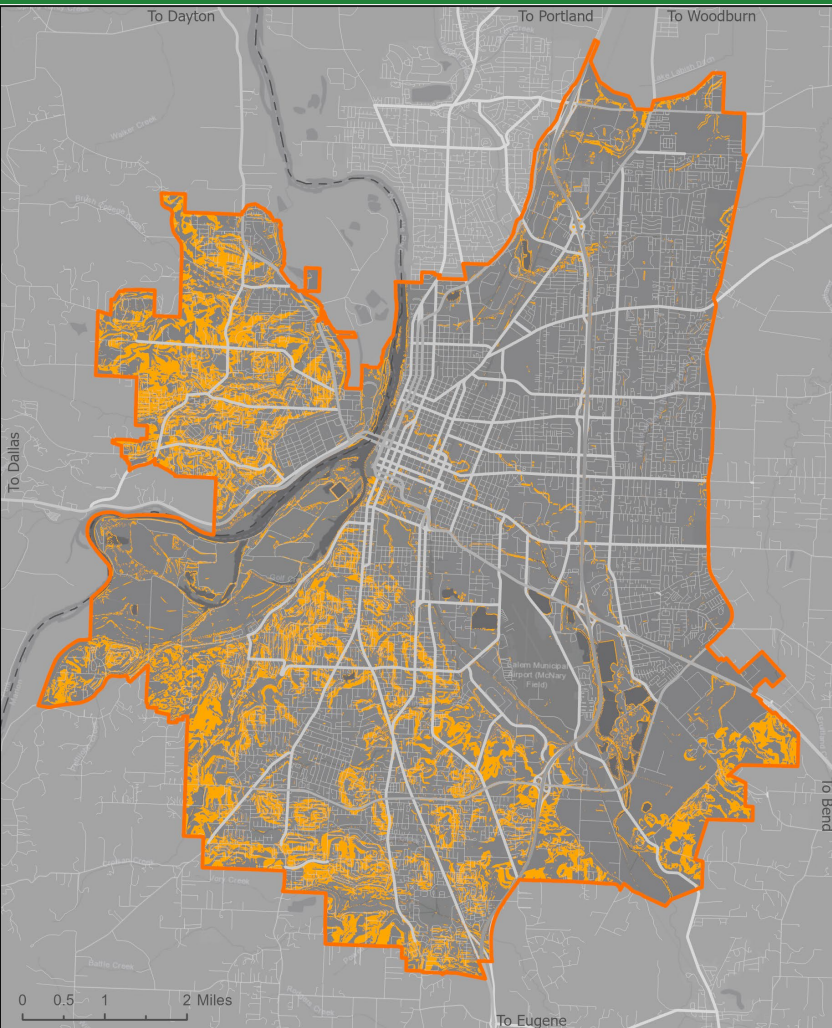

Development in Environmentally Sensitive Areas

Percentage of development in floodplains

Development in Environmentally Sensitive Areas

Percentage of development in areas with > 10% slope

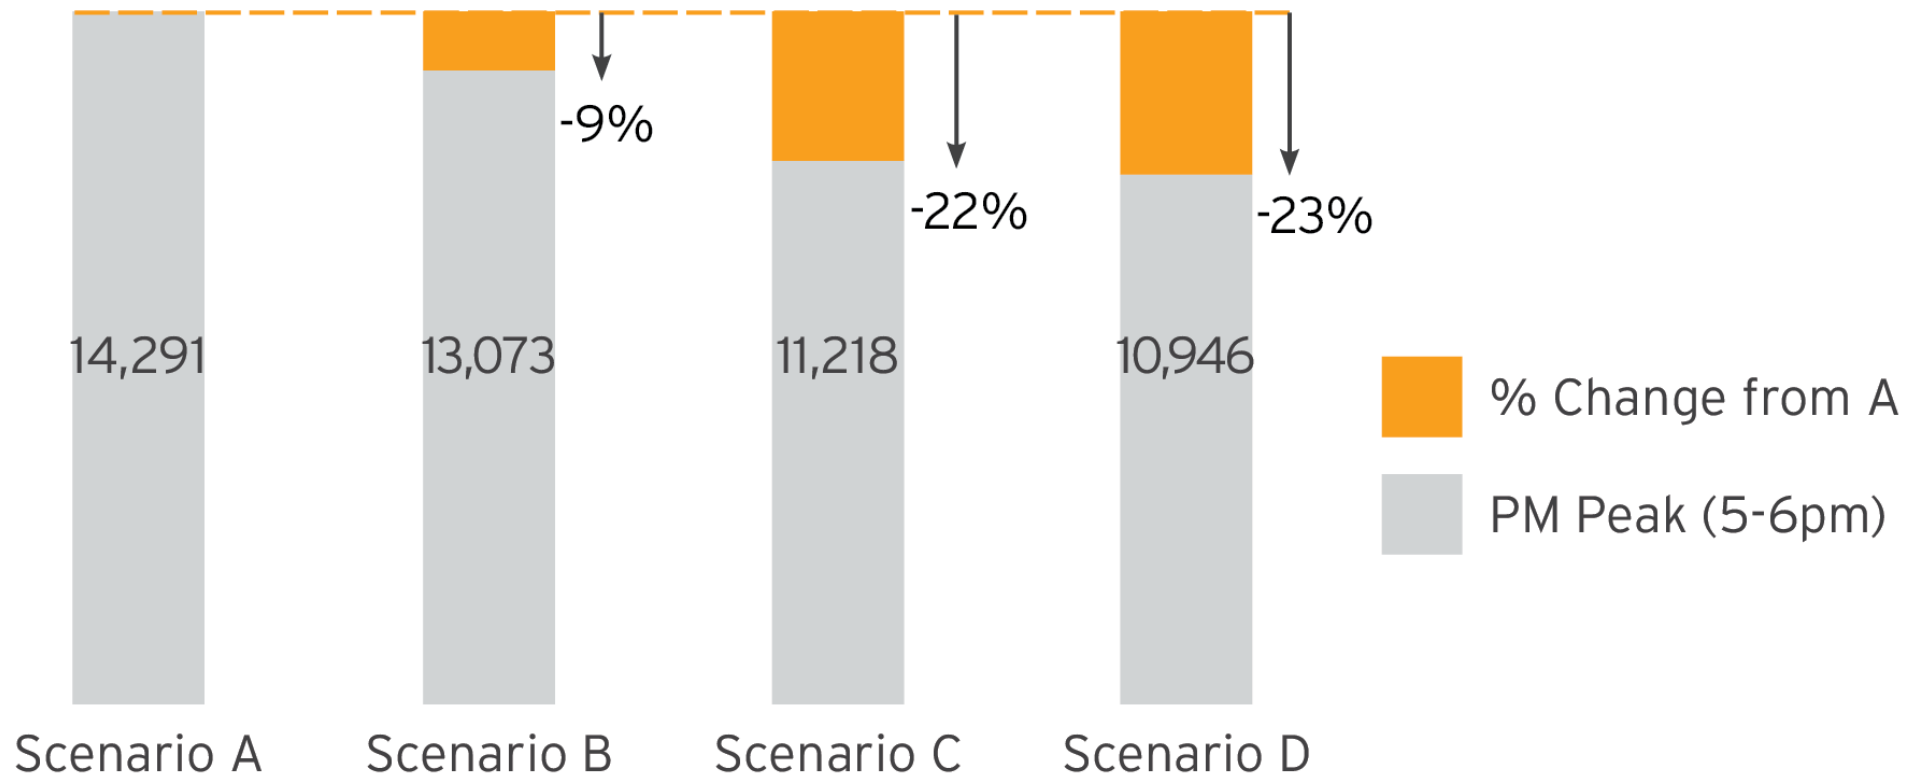

Mode Split

	State	Scenario A	Scenario B	Scenario C	Scenario D
Vehicle	82%	83.3%	83.1%	82.2%	81.7%
Bus	2%	1.9%	2.0%	2.2%	2.6%
Bike	3%	1.5%	1.5%	1.6%	1.6%
Walk	10%	13.0%	13.2%	13.9%	14.0%

Note: Data includes all trips, not just trips to work

Transportation – Vehicle Hours of Delay

Peak hour from 5 to 6 p.m.
