#### What is Urban Renewal?

Urban Renewal or Tax Increment Financing is a tool used by municipalities to finance improvements and redevelopment in specific areas of a city by reinvesting the increase in the area's property taxes. When the district is created, the assessed value of property within the district is set (or "frozen") and those taxes continue to go to the government (city, county, and school districts throughout the State). Any property value increase above that frozen amount is called the "increment". The amount of taxes on the increased value (or "increment") is what is collected for the urban renewal district to use for redevelopment projects. The State of Oregon created the legislation that allows for urban renewal; districts are created by local municipalities. In Salem, the City Council decides what areas should be included in urban renewal districts. The Council also creates a Plan for improving the area.

There are seven Urban Renewal Areas in Salem and each area's Plan includes a list of specific projects that were approved by the City Council.
